

INCREASE COLOR AND NUTRIENT RESPONSE WITH

PB1 Lto 10-0-0

HGX PRO PB1 LTO provides a highly specific blend of 6+ soil microbes, microbe food and nutrient enhancers to promote:

Color response

Plant resilience

Nutrient uptake by the plant

Furman University uses PB1, Blue Sky, and Bio 800+ Lawn.

GUARANTEED ANALYSIS

Total Nitrogen (N)10.00%
6% Other Water Soluble Nitrogen
4% Urea Nitrogen

Derived from Triazone, Methylene Urea, & Urea

Also contains non-plant food ingredients: Poly L Aspartic Acid, Molasses, Sorbitol, Humic Acid (Peat Based).

Microbes Include: *Bacillus licheniformis*, *B. megaterium*, *B. Pumilus*, *Paenibacillus mucilaginous*, *Psuedomonas spp*, *Trichoderma spp*.

APPLICATION RATES

Turf	Apply 2-3 oz per 1,000 sq ft. Apply at least 0.5 to 2 gals of water per application. Repeat as needed.
Trees, Shrubs, Flowers	Soil drench and foliar app: Add 64-128 oz per 100 gals of water. Apply directly to the soil and plants. Apply every 2-4 weeks

*For full guaranteed analysis and addition use directions, see label

ADDITIONAL TURF AND ORNAMENTAL PRODUCTS

Bio 800+ Turf

Organic, microbial soil amendment that:

- Reduces fertilizer and pesticide use by up to 75%
- Builds soil health
- Boosts root architecture

Ideal for: Lawn Care and Landscape

Bio 800+ Golf

Organic, microbial soil amendment that:

- Improves fertilizer efficiency
- Improves turf resilience against stress
- Develops soil health

Ideal for: Golf, Sports Turf

Bio 800+ Tree & Shrub

Organic, microbial soil amendment that:

- Develops stronger, more vigorous plants
- Boosts root architecture
- Reduces fertilizer and pesticides by up to 90%

Ideal for: Landscape, Nurseries, Greenhouses

Bio 800+ Bloom

Organic, microbial soil amendment that:

- Improves heal in during planting
- Develops more plentiful and more colorful blooms
- Boosts root architecture

Ideal for: Landscape, Nurseries, Greenhouses

Blue Sky 21-0-0

60% slow-release nitrogen fertilizer with microbial food sources that:

- Provides color 2-3x longer than standard fertilizer
- Nurtures steady growth in turf

Ideal for: Lawn Care, Golf Course, Sports Turf

PreBiotic 30-0-0

Stabilized nitrogen fertilizer that:

- Builds a thick turf system
- Provides a pop of green color

Ideal for: Lawn Care, Golf Course, Sports Turf

Granular 2-4-3

Organic, granular fertilizer infused with soil microbes that:

- Develops soil health
- Boosts root architecture

Ideal for: Landscape

Granular 7-9-5

Granular fertilizer infused with soil microbes that:

- Builds a thick turf system
- Fosters seed germination

Ideal for: Lawn Care, Golf Course, Sports Turf

Granular 10-3-2

Granular fertilizer infused with soil microbes that:

- Builds a thick turf system
- Provides a pop of color

Ideal for: Lawn Care, Golf Course, Sports Turf

Plant Start 2-4-3

Organic, granular fertilizer infused with soil microbes including high populations of *mycorrhizal* fungi that:

- Boosts root architecture
- Develops stronger, more vigorous plants

Ideal for: Landscape
