

Holganix Bio 800+

TREE & SHRUB

Harmony Hill Nursery in Pennsylvania reports improved establishment, better resilience against seasonal stresses, and a shorter time to maturity.

Trees and shrubs thrive in a natural forest environment where leaves and organic debris are free to decompose, creating soil that is teeming with microbes. Holganix Bio 800+ Tree and Shrub recreates this natural, forest soil environment for your trees and shrubs. It works by building up the soil microbes in and around your landscaping, which in turn **promotes root development** and **nutrient uptake**, allowing you to **reduce inputs by up to 90%**.

- Reduce inputs by up to 90%
- Stronger plants that better tolerate environmental stresses
- Vigorous root growth
- Improve healing in after a plant installation

Rate Recommendations

Hose-End Sprayer	Fill the container and spray at the highest setting. Use every 4-8 weeks during the growing season.
Backpack Sprayer	7 oz per 1,000 sq ft. When calibration is not possible, add 7 oz per gal of water. Use every 4-8 weeks during the growing season.
New Installation Truck Sprayer	Apply 2.25 gal to 100 gal of water. Spray until runoff, drench soil to saturation, or one gal of mixed product per DBH.
Maintenance Truck Sprayer	Apply 2.25 gal to 200 gal of water. Spray until runoff, drench soil to saturation.

Storage

For long-term storage, store product in a refrigerator. Product may be stored outside of refrigeration, out of direct sunlight, for up to 2 weeks when packaged in jugs and up to 4 weeks when packaged in totes.
