

The Wilmington Blue Rocks in Delaware use Holganix Bio 800+ Golf and Holganix Blue Sky 21-0-0. They report improved rooting and reduced fungicides by 75%.

Holganix Blue Sky 21-0-0 is pumped with **60% slow-release nitrogen** (methylated urea and triazone) and **40% urea** to enhance growth and color for extended results throughout the season. It also contains microbe food sources and nutrient enhancers.

Holganix Blue Sky 21-0-0 is a turf-focused product that is best suited for lawn and landscape companies, golf courses, and sports fields. When combined with Holganix Bio 800+, Blue Sky 21-0-0 results are enhanced.

- Enhance growth and color for extended results
- 60% slow-release, creating a low burn potential

Rate Recommendations

Apply fertilizer every 6-12 weeks during the growing season. For enhanced results, apply Holganix Blue Sky 21-0-0 in combination with Holganix Bio 800+ products.

The rate can be calculated based on the pounds of nitrogen required.

7.5 ounces = 1/8 lb of N
15 ounces = 1/4 lb of N
21 ounces = 1/3 lb of N
23 ounces = 3/8 lb of N
30 ounces = 1/2 lb of N
45 ounces = 3/4 lb of N
62 ounces = 1 lb of N
