

This Texas lawn care company uses Holganix Bio 800+ Turf and Holganix PreBiotic 30-0-0. They report richer soils, healthier turf, strong root development, and improved color.

Holganix PreBiotic 30-0-0 is a **stabilized nitrogen liquid fertilizer** containing microbe food and a nutrient enhancer to **promote a thick turf system** and **pop of color**. This product is an economical source of nitrogen with low salt content.

Holganix PreBiotic 30-0-0 is a turf-focused product that is best suited for lawn and landscape companies, golf courses, and sports fields. When combined with Holganix Bio 800+, PreBiotic 30-0-0 results are enhanced.

- Improve thick turf system
- Pop of green color
- Economical source of nitrogen with low salt content

Rate Recommendations

Apply fertilizer every 8-12 weeks during the growing season. For enhanced results, apply Holganix PreBiotic 30-0-0 in combination with Holganix Bio 800+ products.

The rate can be calculated based on the pounds of nitrogen required.

5 ounces = 1/8 lb of N

10 ounces = 1/4 lb of N

14 ounces = 1/3 lb of N

20 ounces = 1/2 lb of N

30 ounces = 3/4 lb of N

40 ounces = 1 lb of N
